EDUCATION

University of Oxford

DPhil (PhD) Political Science

2021 – 2025

- Thesis uses high-resolution electoral and demographic data, and original observational and experimental surveys to model neighborhood-level voting using causal inference techniques. Advised by Prof. James Tilley
- Designed and fielded original surveys (incl. conjoint experiments) using Qualtrics and JavaScript/HTML tools. Secured over £20,000 in external funding
- Developed a novel experimental method to evaluate voter preferences using JavaScript
- Completed advanced training in experimental and quasi-experimental design (matching, DiD, RDD, survey design), regression modeling, MRP, machine learning, and mathematical demography

Harvard University

Visiting Fellow (PhD student), Dept of Government

2024 – 2025

- Grade: 4.0 GPA. Completed graduate coursework in mathematical statistics, predictive modeling, random effects models, research design, and data engineering
- Advised by Prof. Ryan Enos. Presented at workshops on experimental methods

London School of Economics

MSc (Hons) Comparative Government

2019 – 2020

- Completed graduate coursework in public and social policy, and panel data methods. Final dissertation on how European direct democracy informs representation and decision-making
- Grade: Distinction (3.9 GPA, top 15%). Advised by Prof. Sara Hobolt

University of York

BA (Hons) Philosophy, Politics and Economics

2016 – 2019

- Grade: 2:1 (3.7 GPA). Final thesis on majoritarian democracy and social inequality

PROFESSIONAL EXPERIENCE

BBC

Elections Analyst

London

2024 and 2025

- Delivered real-time analysis for the 2024 and 2025 local and general election night programs, supporting on-air reporting
- Produced the 2024 general election exit poll in a small team, the most accurate ever

Jesus College and Hertford College, Oxford

Lecturer in Politics

Oxford

2023 – 2025

- Taught R methods labs to 100 undergraduate students for a 'Political Analysis' course
- Delivered lectures and seminars to 300 final-year students on 'Political Sociology', with 96% of students rating teaching as 'excellent' or 'very good' in end-of-term evaluations

United Nations Development Programme

Report Author

Oxford

2023 – 2024

- Designed survey instruments and developed models (incl. post-stratification weighting and raking) for a significant UN climate report, in an international team, based on the largest ever poll of global climate opinions (N = 73,000)
- Co-authored the final report (see [PUBLICATIONS](#)). Assisted in promoting it through international media

LSE British Politics and Policy

Writer

Remote

2022 – 2023

- Authored four articles on British politics and governance for one of the UK's most-read public policy sites (avg. 3,000+ readers). Interviewed by national broadcasters

Dept of Politics and International Relations, Oxford

Research Assistant

Oxford

2021 – 2022

- Conducted exploratory analysis, fielded original surveys, and developed models to predict neighborhood-level political polarization, as part of a £400,000 UK Government-funded project

House of Commons

Parliamentary Researcher

London

Feb – Dec 2020

- Led and co-wrote a report on voting behavior in the 2019 election for senior MPs, using multiyear geographic economic data. Reported in national newspapers
- Conducted qualitative interviews with voters and party members

SELECTED PUBLICATIONS

2025. Regional spending does not affect support for the European Union. Journal of European Public Policy (w/ James Tilley and Sara Hobolt)

2024. Peoples' Climate Vote. New York: United Nations Development Programme (w/ Steve Fisher and others)

2024. Reproduction and Robustness of Kao et al. (2024): 'Female Representation and Legitimacy'. Report from UC Berkeley Replication Games (w/ Tom Brailey and others)

TECHNICAL SKILLS

Programming languages and tools: R (tidyverse, rmarkdown, survey, glmnet, rvest), Python (pandas, numpy, jupyter, sklearn), JavaScript (Qualtrics, survey design), Stata, SPSS, Advanced Excel (data manipulation, pivoting, macros/VBA)

Design and visualization: HTML/CSS, GIS (ArcGIS and QGIS), Adobe Creative Suite, $\text{\LaTeX}$
