PROFESSIONAL EXPERIENCE

More in Common

Senior Research Fellow

London

2026 – Present

BBC

Elections Analyst

London

2024 – 2025

- Delivered real-time analysis for national election coverage, supporting on-air reporting
- Produced the 2024 general election exit poll in a small team, the **most accurate ever**

Harvard University

Visiting Fellow, Dept of Government

Boston

2024 – 2025

- Secured external funding to commission original polling on political polarization
- Worked with faculty and peers on projects analysing public attitudes, using quantitative and qualitative approaches
- Advised graduate researchers on quantitative methods

Jesus College and Hertford College, Oxford

Lecturer in Politics

Oxford

2023 – 2025

- Delivered lectures and seminars for 300+ students, managing tutors and ensuring high teaching standards across modules
- Designed and led R-based quantitative methods teaching
- Supervised students and maintained a 96% 'excellent' or 'very good' teaching rating

United Nations Development Programme

Report Author

New York

2023 – 2024

- Designed survey instruments and developed weighting models for the **Peoples' Climate Vote**—the largest ever survey of climate attitudes (73,000 respondents across 50 countries)
- Oversaw research assistants to gain in-country expertise and deliver high-impact outputs
- Co-authored the final report (see **PUBLICATIONS**)

LSE British Politics and Policy

Writer

Remote

2022 – 2023

- Authored widely-read, rapid analyses translating polling research for policy and media audiences (3,000+ readers); provided commentary for national broadcasters

Oxford University / UK Parliament

Early career research

Oxford & London

2020 – 2022

- Led multi-year quantitative and qualitative research projects for clients on social division, managing timelines, budgets, and producing briefings cited in national media

EDUCATION

University of Oxford

DPhil (PhD) Political Science

2021 – 2025

- Doctoral research uses high-resolution electoral and demographic data, and original observational and experimental surveys to model neighborhood-level voting using causal inference methods. Advised by Prof. James Tilley
- Designed and managed large surveys, qualitative studies, and experiments in Europe and the US, securing funding to do so
- Developed an innovative experimental method to evaluate voter preferences using JavaScript
- Communicated findings to academic and public audiences

London School of Economics

MSc (Hons) Comparative Government (Distinction)

2019 – 2020

University of York

BA (Hons) Philosophy, Politics and Economics

2016 – 2019

MEDIA & PUBLIC ENGAGEMENT

Featured on *ITV News*, the *PoliticsHome* podcast and in *The Guardian* on elections, trust and public opinion. Featured in national media during election coverage

SELECTED PUBLICATIONS

2025. Regional spending does not affect support for the European Union. *Journal of European Public Policy* (Lead author, w/ James Tilley and Sara Hobolt)

2024. *Peoples' Climate Vote*. New York: United Nations Development Programme (w/ Steve Fisher and others)

2024. *Reproduction and Robustness of Kao et al. (2024): 'Female Representation and Legitimacy'*. Report from UC Berkeley Replication Games (w/ Tom Brailey and others)

TECHNICAL SKILLS

Programming languages and tools: R (*tidyverse*, *rmarkdown*, *survey*, *glmnet*, *rvest*), Python (*pandas*, *numpy*, *jupyter*, *sklearn*), JavaScript (*Qualtrics*, *survey design*), Stata, SPSS, Advanced Excel/Sheets (data manipulation, pivoting, macros/VBA)

Analytical skills: Advanced quantitative and mixed-methods research, incl. causal inference, experimental design, focus groups/interviews, survey weighting, data engineering, MRP and machine learning. Reproducible workflows and QA (Git and collaborative versions)

Design and visualization: HTML/CSS, GIS (ArcGIS and QGIS), Adobe Creative Suite, $\LaTeX$
