2024. *Peoples' Climate Vote*. New York: United Nations Development Programme (w/ Steve Fisher and others)

RESEARCH EXPERTISE

Evidence-led policy and political research across quantitative and qualitative methods: spanning public opinion and survey research, experiments and focus groups, advanced statistical modelling (MRP, causal inference, machine learning) and the analysis of large-scale administrative, electoral and geographic data. Working primarily in R and Python, with particular strength in grounding policy in robust evidence and turning complex findings into clear briefings and interactive visuals for decision-makers, media and the public
